

FAST LIFE GRAPHICS

Customer-Provided Garment Agreement

Garment Material Requirements

Accepted materials include 100% cotton, 100% polyester, and cotton/poly blends. Cotton provides the most consistent results. Polyester and blends are more sensitive to heat and pressure and may result in discoloration, press marks, or adhesion issues. By choosing these materials, the customer accepts the increased risk of imperfect or inconsistent results.

Garment Condition Requirements

- Garments must be new, unworn, and unwashed
- Must have tags attached OR proof of recent purchase
- Worn or questionable garments may be refused

Disclaimer

- No guarantee on print quality for customer-provided garments
- Not responsible for damage, defects, or unexpected results
- No refunds or replacements for customer-supplied items

Please confirm:

- ☐ Garments are new, unworn, and unwashed
- ☐ I understand polyester/blends carry additional risk
- ☐ I accept no refunds or replacements
- ☐ I accept all risk for customer-provided garments
